Already £1500 has been contributed for these objects. Further subscriptions will be received, and detailed information given, by the Treasurer, Sir WILLIAM JENNER, Bart., 63, Brook Street, W., or by one of the Honorary Secretaries. ## The Land and Labour of India: A REVIEW. By Colonel W. NASSAU LEES, LL.D.

In his powerful criticisms of the plans for the redemption of the land-tax in India, Mr. Nassau Lees, who is one of the most accomplished Europeans in the Dialects and Ancient Law of Hindustan, ardently contends against an alienation of public property which would deprive the Government of a revenue collected with ease, and would naturally lead us in no short time into difficulties exactly similar to those we have to contend with in Ireland. This volume is the most valuable that has been for a long time published on a question that is in all its details inaccessible even to most Europeans in India, and on which English opinion is something worse than absolutely uninformed. It is full of instructive matter, and should be neglected by no one who takes any enlarged interest in our great dependency."—*Westminster Review*, July, 1867.

## Scottish Provident Institution.

EDINBURGH—6, St. Andrew Square.

LONDON—18, King William Street, E.C.

In this Society alone, members can assure with right to share in whole profits at moderate premiums.

In other offices they may assure at rates as low, but without any prospect of additions: or they may obtain the right to profits, but only by payment of excessive rates.

## TRANSFER OF ASSURANCES.

From its very moderate rates this Society is peculiarly suited to the case of those who may have reasons for discontinuing their policies and assuring afresh in an Office of undoubted stability. Even after several years this may be effected without much (if any) pecuniary loss.

REALISED FUNDS, from accumulation of Premiums alone, above £1,500,000—the increase in 1868 being no less than £133,000.

## SUBSISTING ASSURANCES, £6,500,000.

For full information as to INVESTMENTS see the Annual Reports, of which Copies may be had on application.

The "Insurance Register" (Kent and Co., London) gives inquires the means of judging as to the financial position of the various offices. The facts there brought together show that no Office gives evidences of greater progress or stability than the

SCOTTISH PROVIDENT INSTITUTION.

## Whitaker's Almanack, the

Best, most Complete, and the Cheapest Almanack ever published, is Now Ready, and may be obtained of every Bookseller, Stationer, and News-vendor in the Kingdom. Price One Shilling; or, neatly half-bound, One Shilling and Sixpence.

The reader must not be deceived by the title of this volume into a supposition that it is a meagre mixture of chronology and astronomical calculations. We have, it is true, the usual guide to the sun's revolutions and the moon's changes, and the rivers' ebb and flow, with calendars for regular church-going people, sportsmen, and men of business; but beyond this lies a mass of information of so diversified a character that it would be impossible to describe it within reasonable limits. Let it suffice that there is scarcely a single subject to which there is occasion frequently to refer that will not be found treated in this invaluable compendium—"Army and Navy Gazette."

## THE BEST BOOK THE BEST GIFT.

I.

With 100 Illustrations and 8 Panoramic Views, 2 Vols. crown 8vo. Price One Guinea.

THE NEW TESTAMENT. Edited, with a short Practical Commentary, by Archdeacon CHURTON, M.A., and Archdeacon BASIL JONES, M.A. With authentic Views of Places mentioned in the Sacred Text, from Sketches and Photographs made on the spot.

"The Commentary, as a whole, is not less marked by accuracy and sound learning than by judgment, candour, and piety. We highly commend it to the large class of readers for whom it is designed."—*Guardian.*

"The idea of illustrating the Bible by really faithful representations of the places spoken of is a peculiarly happy one, for it is in fact a kind of commentary. The book is a work of very great elegance and sound scholarship. Of the illustrations it would be impossible to speak in terms of praise sufficiently high. As a gift-book it is most appropriate and invaluable."—*Union Review.*

"The pictures bring home clearly to the imagination the scene of each story, and are faithful transcripts of the places as they are. The text is edited carefully with explanatory notes."—*Examiner.*

"It was a happy idea to think of familiarizing the reader with those scenes which must ever have a peculiar interest for the Christian. We cannot all visit the Holy Land and see Bethlehem where the Saviour was born, or Nazareth, the scene of his early life, the banks of the Jordan, or the shores of the Sea of Galilee, which were so often trodden by his feet; but all these localities are here vividly brought before us."—*Gardeners' Chronicle.*

II.

One Volume, 8vo., 18s. cloth; 31s. 6d. calf; 36s. morocco.

THE PRAYER BOOK, Illustrated with Ornamental Scrolls, Foliage, Head-pieces, Vignettes, Borders, Initial Letters printed in red and black, and Forty Historical Engravings, from the Early Masters, to illustrate the Gospels. Edited by Rev. THOS. JAMES, M.A.

"This beautiful edition is adorned with designs of Raffaele, Fra Angelico, Fra Bartolomeo, and Overbeck. It is further decorated with vignettes, initials, and border ornaments, representing flowers, leaves, fruits, &c., and the initial letters are wonderfully varied."—*London Review.*

"There is no edition of our Book of Common Prayer at once so beautiful as this. The offices of Morning and Evening Prayer are rubricated and ornamented with most beautiful borders and initials; and the Litany is exquisitely printed with a border connecting the initials of the various supplications."—*Standard.*

"The Missals of former days, many of them the labour of years of patient toil and misdirected devotion, are here surpassed by the mechanical apparatus which modern science has made applicable to the purposes of decorative printing."—*The Times.*

"There is not a page in the work which, on minute examination, has not something worthy of commendation."—*Athenaeum.*

"We turn again and again to this Dictionary, with interest, with confidence, with respectful admiration of the labour, the learning, the judgment, the conscientiousness, and we again add, the courage it displays. Even where we differ from the writers, we do so with respect. We see throughout a conscientious love of truth, and an intelligent and successful endeavour to collect and present to us correctly the facts on which they report. We congratulate Dr. Smith on the success of his work."—*Edinburgh Review.*

"A DICTIONARY OF THE BIBLE in some form or another, is indispensable for every family. The Divine, the Scholar and all who seek to investigate thoroughly the various subjects connected with the Bible, and to master those controversies which are now exciting such deep and general interest, must still have recourse to the LARGER DICTIONARY: but to STUDENTS in the UNIVERSITIES, and SCHOOLS or PRIVATE FAMILIES, 'THE CONCISE DICTIONARY' or 'THE SMALLER DICTIONARY,' will, it is believed, supply all that is necessary for the elucidation and explanation of the Bible."—*Editor's Preface.*

**THE BIBLE ATLAS of Maps and Plans**

TO ILLUSTRATE THE GEOGRAPHY AND TOPOGRAPHY OF THE OLD AND NEW TESTAMENTS AND THE APOCRYPHA. With a Complete Index to the Geography of the Bible, by GEORGE GROVE, Esq.

The Maps contain such geographical and topographical illustrations as are required in the study of the Sacred History. They are accurately drawn, and care has been taken to distinguish what is certain from what is only probable.

The Notes comprise a selection of references bearing on the positions of places, and compact views of the most important questions on the Geography and Topography of the Bible, with hints to assist those who may wish to follow out more thoroughly particular topics of inquiry.

The Index, compiled by Mr. GROVE, gives the original name of each place in Hebrew or Greek, with an exhaustive statement of its occurrences in the English Bible, and the modern name wherever it can be identified with certainty or with fair probability.

**A DICTIONARY OF THE ENGLISH LANGUAGE.**

By R. G. LATHAM, M.A., M.D., F.R.S., &c.,

*Late Fellow of King's College, Cambridge; Author of "The English Language," &c.*

FOUNDED ON THAT OF DR. SAMUEL JOHNSON, AS EDITED BY THE REV. H. J. TODD, M.A.

WITH NUMEROUS EMENDATIONS AND EDITIONS.

"The special excellence of the present over all previous editions will be found, no doubt, in the etymological department, which replaces the incorrect and often fanciful derivations of Dr. JOHNSON's day with the more accurate conclusions, especially in the derivations from Teutonic and Scandinavian roots. It also replenishes the vocabulary with newly-coined and technical words which have lately come into fashion; and revises and fortifies the original authorities with examples from more recent and living writers."—John Bull.

"Though nominally based on JOHNSON's dictionary, so much of the original text is discarded as imperfect or erroneous, and the additions in every department are so numerous and extensive, that it may be regarded virtually as a new book. Still, while thus amplifying and improving the original work until its form can no longer be recognised, Dr. LATHAM remains faithful in the main to its general spirit and plan; and his new Dictionary deserves to be studied by every one interested in the language: as a book of reference, it is admirably fitted for general usefulness."—Edinburgh Review.

### A SEARCH FOR WINTER SUNBEAMS

IN THE RIVIERA, CORSICA, ALGIERS, AND SPAIN. By the Hon. SAMUEL S. COX. With numerous Woodcuts, Chromo-lithographs, and Steel Engravings. 8vo., cloth extra, 16s.

"Messrs. Sampson Low and Co. have published a very handsome volume, entitled 'Search for Winter Sunbeams,' by Samuel S. Cox, an American legislator, which gives us an unpretending but graphic notice of his winter wanderings in Europe and Africa. The opening remarks justifying the choice of the title for the book are particularly good. The illustrations are really charming, appealing alike to one's sense of beauty and of the ridiculous. The author takes occasion, in describing his Spanish reminiscences, to urge strongly the establishment of a Spanish Republic. One of the most interesting chapters in a fascinating book is that entitled 'Among the Kabyles,' a people whose land has not yet become part of the modern fashionable tour." —*John Bull*, Jan. 1, 1870.

### NORMANDY PICTURESQUE: a New ARTISTIC BOOK OF TRAVEL. By HENRY BLACKBURN, Author of "Artists and Arabs," &c. Demy 8vo., cloth extra, with numerous Illustrations, 16s.

"One fastens on this handsome volume with no small eagerness, and with expectations warranted by previous experience of the author and his productions; and the eagerness is justified, and the expectations are satisfied." —*Illustrated London News*, Nov. 29, 1869.

"A charming volume of sketches of places, buildings, and people in one of the most interesting parts of France. The author and artist is Mr. Henry Blackburn, whose previous works on Spain, the Pyrenees, and the East have given him a name for this species of graceful art-literature." —*Daily News*, Dec. 3, 1869.

## HURST & BLACKETT'S NEW WORKS.

### HER MAJESTY'S TOWER. Vol. II.

By W. HEPWORTH DIXON. Dedicated, by EXPRESS PERMISSION, TO THE QUEEN. Fourth Edition, 8vo., 15s.

"Mr. Dixon dashes off the scenes of Tower history with great spirit. His descriptions are given with terseness and vigour. The greater part of the second volume is occupied with the story of the Gunpowder Plot. The narrative is extremely interesting, and will repay perusal. Another *cause célèbre* possessed of a perennial interest is the murder of Sir Thomas Overbury. Mr. Dixon tells the tale skilfully. We may congratulate the author on this work. Both volumes are decidedly attractive, and throw much light on our national history, but we think the palm of superior interest must be awarded to the second volume." —*Times*.

**LIFE and REMAINS of ROBERT LEE,** D.D., MINISTER OF OLD GREYFRIARS, CHAPLAIN IN ORDINARY TO THE QUEEN, &c. By R. H. STORY, Minister of Rosneath. With an Introductory Chapter by Mrs. OLIPHANT. 2 vols., 8vo., with Portrait.

"It is but a small thing for a man to leave a mere name behind him, even though that name be famous; it is a far higher merit to bequeath to posterity a living influence, and this Dr. Lee has certainly accomplished. We cordially commend the perusal of the book to everybody." —*Times*.

## BRADBURY, EVANS, & CO.'S LIST OF BOOKS.

**THE FIFTH VOLUME of JOHN LEECH'S PICTURES of LIFE and CHARACTER**, from the Collection of "Mr. Punch," &c. Boards, 12s.; half-bound in morocco, 18s. Uniform with the First Four Series.

"This volume is full of spirit and humour, and in no way inferior to its predecessors. It deals with the subjects of the day, or we should rather say of the age, as it treats of the Great Exhibition, theatres and operas, our rifle meetings, our croquet, billiards, whitebait dinners, servant-galism, Bloomsbury, Alpine travelling, fishing, the hunting-field, Bantingism, Hampstead Heath, Life at Scarborough and at Brighton, the 'Crush-Room' at St. James's, the Derby-day, the worlds of Cabdom and Bumbledom, the

streets, the ball-room, the dog-days, the police, and finally, the irrepressible 'John Thomas.' Like Juvenal of old, so John Leech could say with truth—

"Quicquid agunt homines, votum, timor, ira, voluntas,

Gaudia, discursus, nostri est farrago libelli."

We may add that this is the very last volume of the productions of Leech's fertile pencil which will appear, at all events in this shape."—*Times*, December 10.

The "PICTURES of LIFE and CHARACTER," by JOHN LEECH, may now be had complete in 5 vols., boards, each 12s.; or in 3 vols., bound in half morocco, £4 1s.

**THE "HANDY-VOLUME SHAKSPEARE."** *A choice Miniature Edition*, in 13 vols., 32mo. size, printed on a slightly toned paper of fine quality, with a new, clear, and readable type, on a page free from notes—the Text arranged from a close comparison of the most trustworthy editions. In cloth, with case, 21s. Or in more expensive bindings, viz.: the Guinea and a-Half Edition, in crimson French morocco, gilt edges, with case; and the Three-Guinea Edition, in best morocco or russia, gilt edges, with case and lock.

"This is indeed a Handy-volume edition. It is an edition that Johnson would have prized, as he would have been enabled to use a volume, with its flexible cover, over the fire, and then, when he had done, to put it in his waistcoat-pocket, or return it to its convenient case. Bound in morocco, with

gilt edges, or in limp russia covers, in an elegant case of the same material, these volumes would form a princely present; and recalling our own youthful remembrances, we know of nothing that would have enchanted us more than such a set of books as the Handy-volume Shakspeare."—*Bookseller*.

**THE ENGLISH CYCLOPÆDIA.** *The New Re-issue of the English Cyclopædia* is now complete, and the publication of the Supplementary matter, bringing each Division down to the latest date, having commenced, constitutes this work the newest and most complete Encyclopædia in the English Language. In 24 vols., 4to., cloth, including Index, price 13l. 4s.; or in 12 vols., half calf extra, 15l. 7s.; and half red russia, 15l. 19s.

"In its completed form, the English Cyclopædia is destined, we are sure, to prove of immense value. It is well written, and its vast stores of knowledge are so arranged as to be readily accessible. It is so copious that the student need not doubt that he will find the information he may reasonably

expect in a work which is offered to him as a new Dictionary of Universal Knowledge. Its cheapness, combined with excellence, marks it out for a very wide circulation. We repeat our congratulations to Mr. Knight, who has so honourably brought his important undertaking to a close."—*Daily News*.

The Supplementary Volume of Geography is now ready, cloth, 15s.—The other Supplements are in progress.

**CHARLES KNIGHT'S HISTORY of ENGLAND.** *"A History of the People as well as a History of the State."* Profusely Illustrated with upwards of One Thousand Steel and Wood Engravings. 8 vols., with an elaborate Index, &c., cloth, 3l. 16s.; or handsomely bound for the library, in half calf gilt, extra, 5l. 5s.

"We know of no History of England so free from prejudice, so thoroughly honest and impartial, so stored with facts, fancies, and illustrations, and therefore none so well adapted for school or college, as this 'Popular History of England.'—*Athenaeum*.

"So observes Mr. Charles Knight, in his admirably comprehensive

Popular History of England, from which no topic that concerns the history of the English people—not even this question of the history of parish registers—has been omitted; that book of Mr. Knight's being, let us say here, by the way, the best history extant, not only for, but also of, the people."—Charles Dickens's "All the Year Round."

**PUNCH'S TWENTY-FIVE YEARS of HISTORY: 1841—1865.** *With an Introductory Key* and "Notes" by the Editor to each half-year. "A work without which no Public or Gentleman's Library can be said to be perfect." 25 vols., blue cloth, gilt edges, 10l. 10s.

"Future generations may look to these volumes in blue and gold, and tell to a nicely what the men and women of the present day are like, can recover the evanescent fashions, can learn the fashionable foibles, can tell how the great men of their time appeared to their humorous contemporaries, can hit to a certainty the leading characteristics as well of things as of men. . . . This peculiar faculty of caricature, with pen as well as with pencil, has always distinguished 'Punch,' as these volumes testify. . . . It cannot

be said that 'Punch' has lost very much of its interest with the passing time; for though there are, of course, some, there are very few of his jokes and allusions which an ordinary well-read man need fail to understand; and to the more recondite of them the explanation given with every volume of the re-issue supplies the key. To go through the volumes categorically would be equal to a review of the political, social, fashionable and literary history of the time through which 'Punch' has lived."—*Standard*.

**MONTAGNAC** (É. de): *Les Ardennes illustrées.* Folio, with numerous Woodcuts, rich cloth binding, 80 frs.

"*Le Japon Illustré*," par Aimé Humbert (Hachette). Patriotism and our national Anglo-mania forbid us of course to say that this is the finest work in this year's vast collection of illustrated books and gift-books. But we might say it, and with perhaps entire truth; for a handsomer and more complete monograph we have not seen. Neither in size nor in scope does it come into competition with Siebold's magnificent work; but the author, M. Humbert, formerly the Swiss envoy in Japan, has brought down his information to the last year. He has in the more scientific portion of this fine work exhibited great research in disentangling the perplexed coil of Japanese history, and the solid and accurate information on the relations between the Mikado, the Shio-goon—commonly called Tycoon—and the feudal classes, will serve to dispel much of the ignorance and something of the misinformation with which the political state of this singular people is enveloped in newspaper and popular writing. The social state of the community is described with great life and vigour, and is almost as amusing as a novel: while the illustrations on wood—five hundred in number—are matchless, and favourably contrast in vigour and decision with our own cuts in similar works. Not the least interesting portion in these volumes are the facsimiles of Japanese art. An enormous expense must have been incurred in the production of this work, and we trust that it will have a large sale in this country, and that our artists will profit by the lessons which it teaches. We desire to express unmixed satisfaction with the work."—*Saturday Review*, Dec. 18, 1869.

**CERVANTÈS**: *Don Quichotte*, illustré par G. DORÉ. New and Cheap Edition. 2 vols., royal 4to., cloth, 48 frs.

## NOTES and QUERIES:

A MEDIUM OF INTER-COMMUNICATION FOR LITERARY MEN, GENERAL READERS, STUDENTS, &c.

### ADDRESS.

Twenty years since NOTES AND QUERIES was started for the purpose of supplying what was felt to be a great literary want, viz., a Journal to assist Lovers of Literature and Men of Research in their respective studies. Its utility as a Medium of Inter-communication between those for whom it was intended was at once admitted; and it was soon recognized as Everybody's Common-place Book. Its steady progress in public opinion since that period, renders any account of its object unnecessary.

But during these years a new generation has arisen, to whom it may be fitting to point out that NOTES AND QUERIES combines two of the most marked characteristics of this age—the spirit of inquiry and the principle of co-operation. For while in accordance with the former, its columns are open to all—from the ripe scholar to the more youthful student—who are in search of literary or historical information, it is by the mutual co-operation of all that the inquiries started in it are solved. Men of the highest attainments and social station have recognised this fact, by both asking and answering questions in its columns; and hence it is that NOTES AND QUERIES continues to increase in influence, utility, and circulation.

**NOTES AND QUERIES.**—First Number of a New Volume on Saturday, January 1st, price 4d. Specimen sent for five stamps.

A Monthly Record of the Fine Arts, the Industrial Arts, and the Arts of Design.

With beautiful Engravings on Steel, and numerous Woodcuts.

MONTHLY PARTS, price 2s. 6d.; YEARLY VOLUMES, 31s. 6d.

THE ART-JOURNAL has long maintained a high and prominent place in public favour; not alone because of its information concerning Art, but for the value and beauty of its Engravings and its attractions as a book for the Drawing-room. It continues to be the only work by which the Fine Arts and the Arts of Industry are adequately represented; and is regarded as a "Text-book" in the various Ateliers and Art-Manufactories of the Continent and in America, as well as in those of the British dominions.

Three Illustrations on Steel are given every month, consisting of representations of the finest specimens of Painting and Sculpture, engraved by distinguished English engravers. They include selections from Her Majesty's Collection of Pictures, the Vernon Gallery, the National Gallery, the Turner Collection, and most of the Private Collections of Modern English Pictures in the country. Every Number contains numerous Woodcuts of a high order of excellence, from original designs, and engraved by leading wood engravers, illustrating the various topics discussed.

The Illustrated Articles—continuing some of those that have been marked by public favour—will consist of several useful "novelties." During the year 1870 there will be a series of examples from the great Old Masters in the Arts—those that will first appear being from the productions of Calderon, Orchardson, Marks, Vicat Cole, Leader, and others—artists who have attained fame since the series was commenced; while the illustrated descriptions of "Stately Homes in England" will include Warwick Castle, Penshurst, Arundel Castle, Hardwick Hall, and other places renowned in history, and occasionally open to the public.

## NEW SERIES OF SCHOOL MAPS,

EDITED BY THE REV. S. CLARK, M.A., F.R.G.S.

Drawn and Engraved for the SOCIETY FOR PROMOTING CHRISTIAN KNOWLEDGE, and the NATIONAL SOCIETY FOR PROMOTING THE EDUCATION OF THE POOR.

Several of the Maps in this Series have also been selected by the COMMISSIONERS OF NATIONAL EDUCATION, IRELAND, for use in their Schools.

THIS NEW SERIES OF LARGE SCHOOL MAPS has been prepared at a great expense, and constructed upon the principle of combining the bold outline and lettering requisite for teaching, with the geographical accuracy, systematic arrangement, and finish, of superior Maps. The descriptions in the following list enter into the details explaining the application of this principle, the object of which is to qualify the young for the study of superior maps, and to instruct them by works similar in excellence to the best maps, although of a bolder character. Coarse and inaccurate maps may suffice for some purposes; but those prepared for the young, should at least preserve as close a relation as possible to works of the highest authority.

The following Maps are already Published:-

THE  
WORLD IN HEMISPHERES.

1. EASTERN HEMISPHERE.
2. WESTERN HEMISPHERE.

Two distinct Maps. Size, each 50 inches by 58.

These Hemispheres are constructed on a scale of unusual magnitude, and they unite the boldness of style requisite for Schools with the accuracy of the best Maps.

The Political Divisions of the World are most prominently displayed, and the latest changes have been followed. The principal features of *Natural Geography* are also introduced, including a careful delineation of the Mountains, with a special notice of Volcanoes;—the distribution of Prevailing Winds;—the Ocean Currents;—limits of Icebergs towards the Polar Seas, and the limits of Coral in Warm Waters;—besides other remarkable phenomena.

As the *Vertical Action of the Sun* exercises paramount influence on the Temperature, the Seasons, and other conditions of the Earth, his declination is connected with the graduation of the Maps for every day of the year. Distinct Climatic Zones within the Tropics, resulting chiefly from the variation of Solar Action, are also defined.

For the purpose of familiarizing the eye with *Different Aspects of the Earth's Surface*, supplementary Maps have been added to the principal Hemispheres, which exhibit the sphere projected on the plane of a meridian. These supplements display:—the Earth projected on the plane of the equator, or the Northern and Southern Hemispheres;—also the Earth projected on an oblique plane, showing the Land almost wholly in One Hemisphere, and a prevalence of Water in the other.

The Effect of different Projections on the delineation of the Earth is seldom expressly illustrated. In these Maps the large Eastern and Western Hemispheres, also the supplementary Northern and Southern, and Land and Water Hemispheres, are examples of the Stereographical projection, which has the merit of preserving the form of the outline from the distortion that it undergoes towards the circumference in the Globular and Orthographic systems. Each of those systems is illustrated by two examples, showing the manner in which they respectively distort the outline. In further elucidation of this subject, Mercator's projection, or the compensating development of the sphere on the surface of a cylinder is compared with gores, constructed to cover an artificial Globe on the same scale at the Equator.

Price, of each Hemisphere, separately Mounted on Roller, Varnished, 13s.; or, the Two Hemispheres Mounted as one Map, on Roller, Varnished, 26s.

## EUROPE.

Scale, 65 miles to an inch; size, 58 inches by 50. All the chief Natural Features of the Continent are boldly shown, but in such a way as not to interfere with the distinctness of the Map. The Political Divisions are laid down and carefully coloured according to the most recent changes. The relative importance of the Names is indicated by the style in which they are written, and no names are inserted but those which are required in a map for elementary instruction. The sites of battles and other great historical events are distinguished from places of mere geographical importance.

Price, Mounted on Roller, Varnished, 13s.

## BRITISH ISLES.

Scale, 8 miles to an inch; size, 75 inches by 90. This New Map of Great Britain and Ireland is constructed with the greatest care and accuracy, and has undergone rigid scrutiny. Although the style is bold and made as distinct and clear as possible, the work is of the best class. It contains every place in Great Britain with 2000 inhabitants and upwards, and every place in Ireland with 1500 and upwards; also the principal villages, railway junctions, battle-fields, &c. The names of places are distinguished according to their population. The county towns, assize towns, municipal boroughs, towns which are counties of themselves, parliamentary representation, and episcopal sees, are also expressly denoted to indicate the importance of places. All the railways are carefully delineated. The outline and hills are reduced from the Ordnance Survey, as far as it has been carried.

Price, Mounted on Roller, Varnished, 42s.

Also Maps of AUSTRALIA and NEW ZEALAND (size 34 inches by 42), price Nine Shillings each.

## ENGLAND AND WALES.

Scale, 8 miles to an inch; size, 50 inches by 58. This entirely New Map is an accurate reduction of the Ordnance Survey, drawn in the first place with the utmost precision, and afterwards strengthened boldly for the use of Schools. The Hills in particular are more correctly delineated than they have ever been in School Maps. The Names are systematically engraved according to population; for the number of inhabitants forms the best criterion, on the whole, of local importance. Instead of a uniform circle to indicate positions, a Plan of each place is drawn according to scale, so as to give to the eye some indication of its size. Compare London, Birmingham, or Manchester, with smaller towns. The other incidents that express local importance are also denoted. Thus, the Episcopal Sees, County and Assize Towns, Municipal Boroughs, Parliamentary Representation, and Towns which are Counties of themselves, are severally distinguished. The Railways are also correctly delineated.

Price, Mounted on Roller, Varnished, 13s.

## SCOTLAND AND IRELAND.

Separate Maps; scale, 8 miles to an inch. Size, each 34 inches by 42.

In every previous series of School Maps, Scotland and Ireland have been made of the same size as England and Wales, without regard to uniformity of scale. But to convey a correct impression of the relative extent of the Three Kingdoms, to compare the coast line, the rivers, the mountains, the towns, or the counties of either part of the United Kingdom, with those of the other parts, it is essential to have the whole on the same scale, and treated on an uniform method. Scotland and Ireland in this series form therefore smaller and consequently cheaper Maps than England and Wales; but they range well together with the large Map in the centre; and their construction only varies consistently with the statistical differences which distinguish the three countries. The comparisons thus facilitated must serve to create an interest of itself in the study of our *National Geography*, besides promoting other objects of utility. The description which has already been given of the Map of England and Wales, is equally applicable to the details of the Maps of Scotland and Ireland, and is not therefore repeated.

Price each, Mounted on Roller, Varnished, 9s.

## ASIA.

Scale, 140-miles to an inch, size, 58 inches by 50. In this New Map of Asia, the connection of that Continent with Europe, Africa, and the extremity of Australia, is fully displayed without reducing the scale of Asia itself. In every general view of Asiatic Geography this appears to be a great advantage. Thus, in regard to the great Natural Features—the Mountain-systems, Plains, Deserts, and Seas, can be followed through Asia into the adjacent Continents. In Political Geography, the Relative Positions, Areas, &c., of the European and Asiatic Territories of England, Russia, and Turkey, are brought into one view; and all the Independent States, with their principal divisions, are defined accurately. Recent changes have been duly represented. The New Divisions of Asiatic Russia and of India are shown; also the great Dependencies of the Chinese Empire, according to the latest authorities.

Price, Mounted on Roller, Varnished, 13s.

## AUSTRALASIA.

Scale, 86 miles to an inch; size, 58 inches by 50. This Map includes Australia, Tasmania, New Zealand, Borneo, and the Malay Archipelago. The divisions of the British Possessions into Provinces and Counties are shown. The Names of all the Chief Towns are made prominent, while those of the smaller County and Post Towns, with the most considerable Villages, are inserted in smaller type. It has been thought desirable to give the Names of more Places than are required merely for elementary teaching, owing to their importance as points for Emigration, and their connexion with the growth of the Colonies.

Price, Mounted on Roller, Varnished, 13s.

## HOLY LAND.

Scale, 4½ miles to an inch; size, 50 inches by 58. This Map is especially intended for the use of Schools. The Natural Features are boldly and distinctly drawn; and those names of places which are of importance in elementary instruction are prominently distinguished; but while nothing has been sacrificed which may tend to this primary object, no information which can be conveniently given in a Map has been omitted, and it is adapted for the purposes of the Study as well as those of the School-room. The results of the most recent observations and critical researches are carefully indicated; what is conjectural is distinguished from that which is certain; Classical and Modern Names are given in a lighter type than the others. Maps of the Environs of Jerusalem and the Sinaitic Peninsula occupy the corners.

Price, Mounted on Roller, Varnished, 13s.

## OLD TESTAMENT.

MAP OF THE HOLY LAND TO ILLUSTRATE THE OLD TESTAMENT.

Scale, 8 miles to an inch; size, 34 inches by 42.

Price, Mounted on Roller, Varnished, 9s.

## NEW TESTAMENT.

MAP OF THE HOLY LAND TO ILLUSTRATE THE NEW TESTAMENT.

Scale, 7 miles to an inch; size, 34 inches by 42.

Price, Mounted on Roller, Varnished, 9s.

## THE ACTS AND THE EPISTLES.

MAP OF THE PLACES MENTIONED IN THE ACTS AND THE EPISTLES.

Scale, 57 miles to an inch; size, 34 inches by 42.

Price, Mounted on Roller, Varnished, 9s.

## AFRICA.

Scale, 118 miles to an inch; size, 50 inches by 58. In many respects Africa is presented with a new face in this Map. Its connection with Europe and Asia is preserved, with the advantages already noticed in describing the Map of Asia, and all the latest discoveries of Livingstone, Burton, Speke, Grant, Baker, &c., are inserted.

Price, Mounted on Roller, Varnished, 13s.

## NORTH AMERICA.

Scale, 97 miles to an inch; size, 50 inches by 58. The Natural Geography is boldly delineated. The river systems can be traced at a glance. The mountains are so drawn as to bring out their prominent features, and the character of the country between them. Thus the broad highland, buttressed by the Rocky Mountains and the Pacific Coast Range, is well contrasted with the Valley of the Mississippi, and the range of the Alleghanies.

The Political Geography exhibits the latest divisions of the Continent; the great blocks of territory forming the British Possessions, the United States and Mexico, presenting a remarkable comparison with the little independent Republics of the Central American Isthmus.

The division of the British Territories is accurately displayed, including the New Dominion of Canada. In the United States, the Territories as well as the States are shown, and the distinction between them is marked by different lettering. The possessions of the European powers in the West Indian Islands are also indicated.

Price, Mounted on Roller, Varnished, 13s.

## SOUTH AMERICA.

This Map is the same size and on the same scale as the Map of North America.

The boundaries of the States are delineated from authentic documents; and the conflicting claims put forward by almost every division of this continent are traced. The last arrangements of Colombia and Venezuela are inserted from materials communicated by their respective Governments.

Price, Mounted on Roller, Varnished, 13s.
